### 2022-2023 Annual Theme

---

Right to Farm: How do we think about and support the right to farm as we face ongoing global environmental change and dispossession of farmers from their land, seeds, resources such as water, and ability to achieve a

living wage and just livelihood?

Right to Food: How do we transform food into a public good like universal k-12 education so that people – rather than transnational corporations and market forces – control food and food systems? How do we hold governments – not individuals – accountable for the wellbeing of the people?

Las Recetas de mi Amá: A Cross-Border Research Project on Mexican Cuisine

By: Mar Erisnelida Ruiz Barraza

Food encompasses entire cultures, regions, traditions, and histories. In January of 2022, I began to research the recipes of my family and others close to me. Most of my research focused on the people living in the border cities of San Luis Rio Colorado, Sonora, Mexico and San Luis, Arizona, United States. My initial goal was to document the culinary practices of these two border communities by interviewing men and women of different ages who have a connection to San Luis Rio Colorado, Sonora. However, as my research progressed, I realized that the most important aspect of this work was to document my family recipes to connect with them, to keep them throughout my life and to use them as reference for future generations. With that in mind, I set out to understand my family through their favorite language, food. The result of this work is a digital family recipe book titled, *Las recetas de mi Amá*.

## Nutrire CoLab Season 2 Episode 7

Racializing the Right to Food w/ Rebecca de Souza and Adam Pine

Megan Carney (associate professor of anthropology, University of Arizona) and PhD student Deyanira Ibarra interview Rebecca de Souza and Adam Pine about their work "Hunger, Survivance, and Imaginative Futures: A Racial Analysis of the 'Right to Food'". This conversation followed a recent workshop led by Rebecca and Adam on racialized right to food and storytelling as part of the "Future of Food and Social Justice: A Youth Storytelling Project" at the UA Center for Regional Food Studies.

Rebecca T. de Souza (Ph.D., Purdue University) is an associate professor in the School of Communication at San Diego State University. Her research is concerned with how communication, race, and political-economic systems impact access to food, health, and social wellbeing. Dr. de Souza's critically acclaimed book *Feeding the Other: Whiteness, Privilege, and Neoliberal Stigma in Food Pantries* (2019), explores the role of stigma in the lives of food insecure individuals.

Adam Pine is a human geographer (Ph.D. Rutgers) with teaching and research interests in urban policy, race, and the global food system. His principal research projects examine the relationship between white supremacy and US urban planning, the interconnections between housing precarity and food insecurity, and how anti-racist food activists are fighting to institute the right to food in the US.

Nutrire CoLab is produced in partnership with the American Anthropological Association and the UA Center for Regional Food Studies.

Original music provided by Lazaro Gálvez.

The mission of the UA Campus Pantry is to alleviate hunger in the UA Wildcat community by providing food assistance to those in need.

On average, 1 in 3 college students experience food insecurity at some point in their academic career. The Campus Pantry helps to reduce this statistic by providing supplemental groceries to students in need. In addition, food insecurity looks different for all students. Sometimes it can be a lack of access to transportation, lack of financial resources or simply not having enough or nutritious foods.
