---

### 2022-2023 Annual Theme

Right to Farm: How do we think about and support the right to farm as we face ongoing global environmental change and dispossession of farmers from their land, seeds, resources such as water, and ability to achieve a living wage and just livelihood?

Right to Food: How do we transform food into a public good like universal k-12 education so that people – rather than transnational corporations and market forces – control food and food systems? How do we hold governments – not individuals – accountable for the wellbeing of the people?

## New CRFS Blog Post

"Re-learning Food, Community, and Care on Windward O'ahu"

By: Skylar Jeppesen Benedict

Somewhere along the way, I forgot there were so many different kinds of mud. This thought burst out of me with a chuckle as I placed one foot atop the muddy surface of a walkway between lines of [kalo](#) and sank with surprising speed up to my waist. So why was I in a patch full of kalo?

I am a third year PhD student in sociocultural anthropology at the University of Arizona and I traveled to Hawai'i this summer to feel out a possible dissertation research project that explores the links between *kānaka maoli* food sovereignty, invasive mangrove tree removal, and community participation in land and sea conservation and food cultivation work on the windward side of O'ahu. I investigated these links through participant observation as a volunteer supporting Indigenous organizations working to cultivate native Hawaiian species and food traditions for the long-term resilience and independence of Hawai'i...

## Nutrire CoLab Season 2 Episode 5

### **Policing Pleasure: Colonialism and Reversing Diabetes in Hyderabad**

Anthropologist Megan Warin (University of Adelaide) interviews Pallavi Laxmikanth about her dissertation research on diabetes and nutritional colonialism in Hyderabad.

Pallavi Laxmikanth is a PhD student in Medical Anthropology and Gender Studies at the University of Adelaide. She studies household practices, foods and food products, businesses and initiatives geared at mitigating or managing metabolic disease in middle-class, urban India. In her PhD, she explores how people with type 2 diabetes outwit biomedical and dietary forms of governance to reverse their illness. Using a phenomenological and STS inspired lens, she examines the colonial origins of biochemical and dietary measurements, and the sensual and affective dimensions of their presence in modern nutritional agendas. She demonstrates how measuring comes to be embodied by people with diabetes, as a means to contend with colonial and capitalist forms of indexing foods and bodies. Her interest in the intersection between food and health, is inspired by her previous work experience in the food industry in India.

Nutrire CoLab is produced in partnership with the American Anthropological Association and the UA Center for Regional Food Studies.

Original music provided by Lazaro Gálvez.

Season 2, Episode 5 is now available on [Spotify](#).

# **Friends of Tucson's Birthplace/Mission Garden Is Hiring for Executive Director**

## **Job description:**

Mission Garden, a living agricultural museum of Sonoran Desert-adapted heritage fruit trees, traditional local heirloom crops and edible native plants, is seeking an Executive Director.

Reporting to the Board of Directors, the Executive Director will have overall strategic and operational responsibility for Friends of Tucson's Birthplace staff, programs, expansion, and execution of its mission. The Executive Director will develop knowledge of Mission Garden's core interpretive & educational programs, operations, and business plans and will be responsible for strategies and implementation for fundraising including grant writing.

## **Responsibilities**

### **Leadership & Management:**

- Ensure ongoing programmatic excellence, rigorous program evaluation, and consistent quality of finance and administration, fundraising, communications, and systems; recommend timelines and resources needed to achieve the strategic goals and to communicate to the board, funding sources, and partner organizations.
- Actively engage and energize FOTB volunteers, board members, committees, partnering organizations, and funding sources.
- Support a strong Board of Directors: seek and build board involvement with strategic direction for operations.

### **Fundraising & Communications:**

- Expand local revenue generating and fundraising activities to support existing and expanding programs & operations.
- Identify potential grants to support Mission Garden's mission and oversee preparation of applications.

- Deepen and refine all aspects of communications—from social media presence to advertising to external relations with the goal of creating a stronger public awareness of Mission Garden and its programs.

### **Planning & Expansion:**

- Prepare a strategic business planning process for expansion of the Garden's educational and interpretive programs.
- Build partnerships and establish relationships with cultural organizations, potential donors, and political and community leaders.
- Be an external presence that communicates successes of the Garden programs.
- Position Friends of Tucson's Birthplace to participate in further development of Tucson Origins Heritage Park, Santa Cruz Valley Heritage Area plans, the future of the A Mountain Landfill and areas adjacent to TOHP assets.

### **Qualifications**

The Executive Director will be thoroughly committed to FOTB's mission and have proven fundraising, leadership, and relationship management experience. Other experience and qualifications include:

- Minimum of 3-5 years of management experience effectively leading non-profit organizations and staff.
- Experience developing operational strategies that have taken an organization to continued growth.
- Excellence in organizational management; ability to achieve strategic objectives and manage a budget.
- Strong written and verbal communication skills. A persuasive and passionate communicator with excellent interpersonal and multidisciplinary project skills
- Lead and oversee staff of 6, plan for potential additional staff.
- Ensure that committees are working effectively
- Ability to build relationships with donors and raise funds
- Mission/Passion: someone who believes in what we are doing and can effectively communicate that message

- Community outreach: ability to speak effectively on MG's behalf in community and fundraising settings
- Ability to identify grants, oversee the submission process and get them funded
- Building bridges: ability to use the multicultural nature of MG to help build bridges between communities
- Past success working with a culturally diverse Board of Directors with the ability to cultivate existing and future board member relationships.
- Knowledge of/proven interest in Tucson's history, multicultural heritage, and agriculture
- Develop and maintain effective relationships with donors and Board of Directors.
- Bachelor's degree required. Business Administration, Management, Communications, Marketing or similar experience. Advanced degree preferred
- Strong marketing, public relations, and fundraising experience with the ability to engage a wide range of stakeholders and cultures
- Familiarity with donor database software, QuickBooks and social media programs
- Ability to work effectively in collaboration with diverse organizations and groups of people
- Personal characteristics: Passion, idealism, integrity, positive attitude, mission-driven, comfortable and productive in cross-cultural settings
- Multilingual preferred, BIPOC individuals encouraged to apply.

**Position open until filled.**

Please send cover letter, resume and three references to:

[search@missiongarden.org](mailto:search@missiongarden.org) or ED Search Committee Friends of Tucson's  
Birthplace P.O. Box 1228 Tucson, AZ 85702

*The Executive Director is an exempt position*

*Salary: Commensurate with experience and qualifications*

## Center for Good Food Purchasing Is Hiring For Policy Fellow Position

### **The Role:**

The Center for Good Food Purchasing is seeking an experienced candidate to join our team as a Policy Fellow; a new two-year, full-time fellowship position.

This is a remote position that may require occasional travel. The Center for Good Food Purchasing is based in the Bay Area of California.

### **Salary and Benefits:**

The Policy Fellow is a full-time, two-year exempt position with an annual salary of \$71,000 to \$80,000. The Center for Good Food Purchasing, a fiscally-sponsored project of Community Partners, also offers competitive benefits (i.e. medical/dental/vision, disability/life insurance, vacation, and a 403(b) plan).

Community Partners® is an equal opportunity employer committed to a diverse and inclusive workforce. We strongly encourage and seek applications from people of color, including bilingual and bicultural individuals, as well as women, and members of the lesbian, gay, bisexual, and transgender communities. In addition, the organization will consider for employment qualified applicants with criminal histories in a manner consistent with the requirements of the Los Angeles Fair Chance Initiative for Hiring.

Applications are due by **Monday, February 27, 2023.**

### **The Organization:**

The Center for Good Food Purchasing uses the power of procurement and partnerships to create a transparent and equitable food system that prioritizes the health and well-being of people, animals, and the environment. We do this through the nationally-networked adoption and implementation of the Good Food Purchasing Program by major institutions.

### Fully Funded M.S. Research Position in Food Studies at Syracuse University

Graduate research assistant to work under the supervision of [Dr. Rick Welsh, Professor of Food Studies](#), as part of a National Institute of Food and Agriculture funded Sustainable Agriculture Systems grant. The position is fully funded for two academic years and includes a 20 hour per week work schedule and stipend and 30 graduate credits leading to a [M.S. in Food Studies](#).

In this project you will work as part of a multidisciplinary and multi-institutional team seeking to understand the feasibility and ecological, economic, social, and political implications of developing micro and macro algae feed supplements (AFS) for dairy cattle to potentially enhance herd health and reduce methane emissions. Our focus is on measuring current organic and conventional farmers', and other dairy professionals', understanding and knowledge of AFS to inform the biophysical research on AFS, and develop outreach strategies to inform interested parties of project results as they become available. For more information see: [Can Kelp Help? Research Examines Dairy Farmer, Dairy Nutritionist Attitudes on Adding Feed Additive to Cut Methane Emissions](#) | Syracuse University News.

Applicants should possess a bachelor's degree and a keen interest in sustainable agriculture systems, including social justice aspects of sustainability which is a significant part of the M.S. in Food Studies at Syracuse University. Quantitative and qualitative training in research methods helpful but not required. The degree program is 100% in-person and requires moving to Syracuse, New

York for approximately two academic years- August 2023-May 2025. Interested applicants should [apply to the M.S. in Food Studies](#) and indicate in their personal statement they are interested in the working with Dr. Welsh on this project. Preferred deadline is **2/1/2023**, but applicants will be considered after that date.

For more information on this position, please contact Rick Welsh at [rwelsh@syr.edu](mailto:rwelsh@syr.edu). For general information on the M.S. program please contact the Graduate Director, Dr. Laura-Anne Minkoff-Zern at [lminkoff@syr.edu](mailto:lminkoff@syr.edu).

# Food Solutions New England Virtual Gatherings

## Announcing: 2023 February Intensive Series

### Moving Towards Well-being and Belonging

This February, Food Solutions New England (FSNE) will host a virtual gathering, in two parts, designed to inspire, connect, and mobilize our values-aligned regional network from around the country and globe. We will be joined by friends and partners from [The Full Frame Initiative](#) and the [Othering and Belonging Institute](#) at UC Berkeley. The gathering, free and open to the public, will create space for us to explore ways to advance equitable well-being and belonging in food and related systems. It will help galvanize FSNE's second decade of work in the direction of the [New England Food Vision](#) and [Values](#), while strengthening relationships and creating new ones through participatory engagement. The gathering will also build the momentum for upcoming FSNE and partner offerings, including the FSNE [21-Day Racial Equity Challenge](#) and the [Northeast Farm to Institution Summit](#), both happening in April 2023. Plan to attend both or one of them!

#### Wellbeing

Friday, February 3 | 10am - 4PM

[Register here](#)

Join FSNE co-hosts Karen Spiller and Curtis Ogden for conversation with staff from [The Full Frame Initiative](#), creators and convenors of the [Wellbeing Blueprint](#), a network of community leaders, advocates and change agents who are united across sectors and issue areas to steer the US towards equity, well-being and justice. During the morning we will be in conversation with our guests and one another about what well-being is, structural and systemic barriers, and how we can work to ensure everyone has a fair shot at it. During the afternoon we will do a deeper dive into the Wellbeing Principles and break out into groups to discuss how to

#### Belonging

Friday, February 17 | 10am - 4PM

[Register here](#)

Join FSNE co-hosts Karen Spiller and Curtis Ogden for conversation with staff from the [Othering and Belonging Institute](#) at the University of California-Berkeley, a community of scholars, organizers, communicators, researchers, artists, and policymakers committed to building a world where all people belong. In the morning participants will have a chance to meet one another and explore a few techniques for “building belonging” that people can bring to their work and communities. Our guests will join us in the afternoon as we collectively explore how to move from othering to belonging in food and related

bring these into our work and communities. systems. There will be an hour break for  
There will be an hour break for lunch. lunch.

## **Call for Papers - Special Issue on the Future Geography of Food**

The [2022 AGS Symposium](#) was on the Future of Food. The Geographical Review is planning a Special Issue to follow this symposium, to be edited by Antoinette WinklerPrins and Moses Kansanga. The special issue will focus on the Future Geography of Food.

Without food, there is no life. As our planet and its climate change, and the needs of humanity evolve, where we get our sustenance from matters now more than ever. From our changing consumption patterns, to the nature of our supply chains, to the geographic patterns of our food production, to the ever-pressing need for sustainable agriculture, we must understand the dependencies that we have today, and what the future geography of food looks like if humanity is to be sustained into the future.

Agriculture has been through several revolutions over the past three centuries - expanding to utilize nearly all of our planet's arable land, with more sophisticated technologies, and ever fewer human laborers. While one might imagine that this would lead to ever stronger food security, expanding and urbanizing human populations have left us with an increasingly insecure food landscape, with climate change exacerbating this in a multitude of ways. Many of the miracles of modern agriculture have further weakened many peoples' control over their food destinies as the industrialization of agriculture has undermined food sovereignty around the globe. It may be that new foods, such as meatless and cultured meats, new technologies such as contained environmental (aka as vertical) farms, and new supply chain strategies that reduce food waste could help answer some of these challenges. Or, it may be that their implementation merely creates more of the dependency and inequality that has been endemic to humanity's food chain for centuries.

**The following are topical areas to be considered for inclusion in this special issue**

- The geographical origins of food
- Agriculture and the climate challenge (impacts, contributions, mitigation)
- Food system innovations (including vertical agriculture, meatless and cultured meats etc.) and their implications for addressing global hunger
- Food nutritional security at all scales
- Food accessibility and equity in a changing global foodscape
- Food sovereignty and justice
- The changing cultural dimensions of food
- The geography of food loss and waste
- Labor implications of food system transformations under the fourth agricultural revolution
- Finance and investment of food and implications for food security
- Geospatial technology in the fourth agricultural revolution and its geographic implications.

### **Timeline of the special issue**

**Call for paper proposals posted by December 1, 2022 and is open through February 28, 2023.**

Proposals should include 500 word summary of the idea for a manuscript, with preliminary title – send to Antoinette WinklerPrins, [antoinette@jhu.edu](mailto:antoinette@jhu.edu) and Moses Kansanga, [mkansanga@gwu.edu](mailto:mkansanga@gwu.edu)

Authors notified of acceptance of their paper proposal by **March 30, 2023.**

Manuscripts should be 6,000 words, all in, and meet the following:

- Must be empirically based
- Address a topic(s) related to the themes of the symposium, with ample attention to the "future of food".
- Should include geographic and/or spatial dimensions, including the use of maps and illustrations.

Manuscripts are to be submitted via the *Geographical Review* portal by **July 1, 2023**; these will undergo full peer review

Revisions due by ~ **November 1, 2023**

## UA Campus Pantry

---

### Please Remember to Support our Campus Pantry

The mission of the UA Campus Pantry is to alleviate hunger in the UA Wildcat community by providing food assistance to those in need.

On average, 1 in 3 college students experience food insecurity at some point in their academic career. The Campus Pantry helps to reduce this statistic by providing supplemental groceries to students in need. In addition, food insecurity looks different for all students. Sometimes it can be a lack of access to transportation, lack of financial resources or simply not having enough or nutritious foods.

**For more information, including how to donate, please visit the [Campus Pantry](#) website.**

## CRFS Blog Submissions

---

# Call for Submissions

**Call for submissions** opens April 1, 2022 with rolling deadline

**Final submission deadline:** November 1, 2023

*Share your visions for the future of food and farming in southern Arizona!*

## **Description:**

The UA Center for Regional Food Studies (CRFS) is curating a multimedia storytelling project to explore visions for a more sustainable, just, and vibrant food system in southern Arizona. We invite you to submit your stories and vision.

Questions we are exploring for this project include: What are your visions for the future of food and farming in southern Arizona? How do food traditions, heritage, and family stories shape your ideas for the future of food in this region? In the context of global climate change, urban development, and struggles for food sovereignty, how do food stories and practices provide hope and direction for the future? How can we build community and coalitions for change to work together towards more just futures? What role should food play in the economic development of our region?

Submissions will be collected and curated into a public storytelling project that explores visions for the future of food and farming in southern Arizona. Accepted submissions will be shared first online through the CRFS blog, then later in print and in the form of a podcast.

This storytelling project will also inform our approach to a teach-in (combining workshops, skill-sharing, and community conversations) and participatory action research about these topics in 2022-23.

Topics of engagement and storytelling might include (but are not limited to):

- Food heritage and how to keep it alive
- Climate change and climate adaptation
- Food and economic development
- Food justice and food sovereignty

- Just livelihoods for food system workers
- Youth and food
- Building community through food and farming
- Visions for technology, development, research, and/or collaboration
- The right to food and/or the right to farm

### **Who can submit a story or vision?**

- Anyone can submit a story or vision regardless of their gender, age, profession, citizenship status, etc.
- Submissions can be from individuals or groups

### **Submission Format:**

We invite you to share your visions about any of these topics as they relate to your community and/or the food-related work you do in southern Arizona.

Submissions can be in any of the following formats:

- a short story, essay or statement describing your vision (maximum 500 words)
- audio recordings describing your vision (maximum 3.5 minutes)
- brief interviews (these can be completed upon request by CRFS staff)
- visual art (photography, drawings, paintings, etc.)

Please include your full name(s), contact information, and brief biography (50-100 words) with your submission.

**Note:** CRFS staff can assist with the recording of your submission if needed. We are also happy to collect your contribution through an interview. Please reach out to us to discuss how we can help.

Those with accepted submissions will be provided a modest honorarium and invited to participate in a community celebration of the complete project in December 2023.

**Submissions will be accepted on a rolling deadline.**

**Final submission deadline: November 1, 2023**

**Email expressions of interest or submissions to CRFS assistant**

**director**, Laurel Bellante: [bellante@arizona.edu](mailto:bellante@arizona.edu)

**For questions, concerns, or to learn more about the project**, please contact  
CRFS director, Megan Carney, at [mcarney@arizona.edu](mailto:mcarney@arizona.edu)

---

## **Apertura de Convocatoria**

**Apertura de convocatoria:** 1 de abril, 2022

**Fecha límite definitiva:** 1 de noviembre, 2023

*¡Comparte tu visión del futuro de los alimentos  
y la agricultura en el sur de Arizona!*

### **Descripción:**

El Centro de Estudios Alimentarios Regionales de la Universidad de Arizona está organizando una colección de narrativas multimedia para explorar distintas visiones de sistemas alimentarios más sustentables, justos y dinámicos en el sur de Arizona. Te invitamos a presentar tu visión e historias.

Las preguntas por explorar en este proyecto incluyen: ¿Cuáles son tus visiones para el futuro de los alimentos y la agricultura en el sur de Arizona? ¿Cómo es que las tradiciones culinarias, tu patrimonio e historias familiares definen tu visión del futuro de los alimentos en esta región? En el contexto del cambio climático global, el desarrollo urbano y la lucha por la soberanía alimentaria ¿de qué manera te dan esperanza y una dirección a futuro las prácticas alimentarias e historias alrededor de ellas? ¿Cómo podemos construir comunidades y alianzas de cambio para trabajar por futuros más justos? ¿Qué papel deberían jugar los alimentos en el desarrollo económico de nuestra región?

Los materiales seleccionados serán recopilados y presentados en una colección de narrativas comunitarias que explora las visiones del futuro de los alimentos y la agricultura en el sur de Arizona. Las propuestas que sean aceptadas se compartirán primero en línea a través del blog del Centro, luego en formato impreso y en un podcast.

Este proyecto de narrativas también orientará nuestro enfoque educativo y de investigación-acción participativa (una combinación de talleres, intercambio de

habilidades, y conversaciones comunitarias) alrededor de estos temas en 2022-23.

Los temas de participación y narrativa incluyen (pero no están limitados a):

- Patrimonio alimentario y cómo mantenerlo vivo
- Cambio climático y adaptación climática
- Desarrollo alimentario y económico
- Justicia y soberanía alimentarias
- Vivienda justa para trabajadores del sistema alimentario
- Juventud y alimentos
- Construcción comunitaria desde la alimentación y la agricultura
- Visiones de tecnología, desarrollo, investigación y/o colaboración
- El derecho a la alimentación y/o el derecho de cultivar

**¿Quien puede enviar una propuesta?:**

- Cualquier persona puede mandar su propuesta sin importar género, edad, profesión, estatus migratorio, etc.
- Propuestas pueden ser de parte de individuos o grupos

**Formato de presentaciones:**

Te invitamos a compartir tu visión sobre cualquiera de estos temas en la medida en que se relacionan con tu comunidad y/o con tu trabajo con los alimentos en el sur de Arizona. Las presentaciones pueden ser en cualquiera de los siguientes formatos:

- Historia corta, ensayo o una declaración que describa tu visión (máximo 500 palabras)
- Grabaciones de audio describiendo tu visión (máximo 3.5 minutos)
- Entrevistas cortas (pueden ser completadas a solicitud del personal de CRFS)
- Arte visual (fotografía, dibujos, pintura, etc.)

Favor de enviar junto con su presentación: nombre(s), información de contacto,

biografía corta (50-100 palabras).

**Nota:** El personal de CRFS puede asistir en la grabación de presentaciones si es necesario. También estamos dispuestos incluir su participación a través de una entrevista. Por favor contáctenos para discutir cómo podemos ayudar.

Aquellas personas cuyas presentaciones sean aceptadas recibirán un honorario modesto y podrán participar en una celebración comunitaria al concluir el proyecto en diciembre 2023.

**Las presentaciones serán recibidas y evaluadas hasta llenarse el cupo.**

**Fecha límite definitiva: 1 de Noviembre, 2023**

**Puede expresar su interés o mandar su presentación a la subdirectora del CRFS, Laurel Bellante:** [bellante@arizona.edu](mailto:bellante@arizona.edu)

**Para preguntas, inquietudes o para aprender más del proyecto,** por favor contacte a la directora del CRFS, Megan Carney, at [mcarney@arizona.edu](mailto:mcarney@arizona.edu)

---

## CRFS Blog Submissions

The CRFS blog aims to highlight the diversity of teaching, research, and service happening around food within our community. We invite submissions of 500-700 words by faculty, staff, and students, as well as community members. We are also open to proposals for photo essays, video compilations, and/or interviews. **Submit your ideas or questions to CRFS Assistant Director, [Laurel Bellante](#).**
