CRFS 2021-2023 Theme

Right to Farm: How do we think about and support the right to farm as we face ongoing global environmental change and dispossession of farmers from their land, seeds, resources such as water, and ability to achieve a living wage and just livelihood?

Right to Food: How do we transform food into a public good like universal k-12 education so that people – rather than transnational corporations and market forces – control food and food systems? How do we hold governments – not individuals – accountable for the wellbeing of the people?

CRFS Events

Whose food systems matter? The Story of

Manoomin(wild rice).

Featuring: Dr. Marie Schaefer (U.S. Geological Survey)

Panel to follow: Sterling Johnson, Farm Manager and Farm Mentor, Ajo Center for Sustainable Agriculture and Michael Kotutwa Johnson, Ph.D.

When: Friday, February 25th at 1-2:30PM

Via Zoom registration link [here](#).

Manoomin, the Anishinaabemowin word for wild rice, has long been an essential component to the survival and identity of the Anishinaabeg (the Indigenous peoples of the Great Lakes region). Yet Anishinaabeg capacities to subsist from manoomin have diminished greatly. In this talk, Dr. Schaefer will examine the impacts of settler colonialism and commodification on manoomin, tracing how it went from being grown only in the Great Lakes region to being grown primarily on farms in California. She will discuss how Native food sovereignty and the rights of nature movements fight against settler colonialism's takeover of Indigenous food systems.

For more information please see the flyer below and register [here](#).

Dr. Marie Schaefer is a transdisciplinary scientist whose work focuses on how collaborations between Indigenous and scientific knowledges can contribute to sustainable futures. She is of Anishinaabe (Odawa) and European settler descent and has over a decade of experience working with Tribal nations. As the Tribal Climate Strategies Research Scholar at the U.S. Geological Survey's Southeast Climate Adaptation Science Center (SE CASC), Marie develops and conducts climate change research with Tribal nations across the Southeast CASC region. Marie is also an Advisory Council member of the Northeast Indigenous Climate Resilience Network. Marie holds a Ph.D. in Community Sustainability from Michigan State University and an M.A. in Applied Anthropology from Northern Arizona University.

Hard to Swallow: The Racist Messages Behind American Images of Fruit

Featuring: Dr. Shana Klein (Kent University)

When: Thursday, February 24th at 5:30PM.

Where: The Center for Creative Photography

Representations of food were delicious to look at in the late-nineteenth and early-twentieth centuries. Paintings of grapes were so tempting to viewers that they often tried to pluck the painted fruit from the canvas. Artists, in turn, enjoyed painting mouthwatering fruits, like capturing the glassy surfaces of watermelons or prickly facades of pineapples.

Though fun to depict and view, representations of fruit had darker consequences and perpetuated cruel, racist stereotypes about the people who produced and consumed it in the United States. This book talk will bring together the disciplines of Art History and Food Studies to reveal how pictures of fruit struck the nerve of the nation's most heated debates over labor, race and citizenship.

This in-person talk will take place at the Center for Creative Photography. It is presented in conjunction with [The Art of Food](#) exhibition and is co-sponsored with the UArizona Center For Regional Food Studies.

THE ART OF FOOD

From the Collections of
Jordan D. Schnitzer and
His Family Foundation

SPRING 2022

AT THE TABLE SPEAKER SERIES

at THE UNIVERSITY OF ARIZONA MUSEUM OF ART

THE GASTRONOMIC AVANT-GARDE

Thurs, January 20, 5PM
Virtual via Zoom

From feasts, fairs and Futurism, to Pop, festivals and food activism, this talk with **Dr. Paul Ivey** will provide us with food for thought by highlighting the relationships between food, art and culture.

Dr. Ivey – who teaches Modern and Contemporary Art – will chew the fat on the visual art of food and the aesthetics of cuisine, providing as examples a smorgasbord of modern and contemporary artworks that will leave the gourmand museum-goer hungry for more.

VASE LECTURE WITH ARTIST ANALIA SABAN

Thurs, February 10, 5:30PM
In Person at the Center for
Creative Photography

Join us for this special evening with artist **Analia Saban**, who will give a comprehensive lecture about her art practice over the last 16 years, from her days as a graduate student until today. Through her work, she will speak about her interest in materiality, technology and how the history of materials influences Art History.

This event is made possible through a collaboration between UAMA and the School of Art Visiting Artist and Lecture Series. Saban's work is on view now in the UAMA exhibition *The Art of Food*.

HARD TO SWALLOW: THE RACIST MESSAGES BEHIND AMERICAN IMAGES OF FRUIT

Thurs, February 24, 5:30PM
In Person at the Center for
Creative Photography

Though fun to depict and view, early American representations of fruit had darker consequences and perpetuated cruel, racist stereotypes about the people who produced and consumed it in the US. This book talk with **Shana Klein** will bring together the disciplines of Art History and Food Studies to reveal how pictures of fruit struck the nerve of the nation's most heated debates over labor, race and citizenship.

This event is co-sponsored with:

Impact Earth Podcast: Food Systems: Pandemics, Equity and the Future

Listen to Center for Regional Food Studies Assistant Director, Laurel Bellante, and Gigi Owen (CLIMAS) talk about Food Systems: Pandemics, Equity, and the Future on the Impact Earth podcast. The episode: [Food Systems: Pandemics, Equity and the Future](#) is now streaming on Spotify and all major podcast platforms.

Impact Earth: A Roadmap to Resilience, Episode 8, Food systems incorporate all components of food and agricultural production, processing, distribution, consumption, and waste. Local food systems aim to provide fresh and affordable food to area residents while supporting local agricultural producers and food businesses. These models are impacted by broader global challenges such as climate and environmental change, social inequalities, public health, economic power, and international and domestic policies. We are taking the deep dive into these systems with research experts from the University of Arizona's Food Systems Research Lab – join us.

W.A. Franke Honors College Speaker Series 'Big Ideas, Grand Challenges'

Center for Regional Food Studies Assistant Director, Laurel Bellante spoke on the panel, "The Future of Food Production," alongside Viraj Puri (Gotham Greens) and Dionne Washington (Project Roots, Phoenix) on January 26th. Some of the topics discussed included: the effect of climate change on producing food at local and global levels to the best ways to deal with food waste in the future.

The recording of this event is now posted. Watch the recording [here](#).

Nutrire CoLab Episode 4: Decolonized Food

Systems

In this episode, Alyshia Gálvez hosts and engages in conversation with Sean Sherman, the Sioux Chef; with Karen Rojas, who is a cofounder of Bronx Bikes, and recently finished her Masters degree in Public Health; and finally we include a discussion about Decolonizing Sustainable Agriculture & Food Systems Education with a group of anthropologists (Teresa Mares, Tony Van Winkle, and Gabriel Valle) at the recent annual meeting of the American Anthropological Association.

Nutrire CoLab is comprised of a group of women scholars who identify as feminist and are mostly anthropologists. The podcast explores eating, feeding, caring, and healing from a critical medical and feminist, primarily anthropological lens.

Episode 4 is now available on [Spotify](#).

2020-21 State of the Tucson Food System Report

If you missed the launch event of the 2020-21 State of the Tucson Food System report, you can now watch the recording of the event [here](#), or by clicking on the below *STFS Video* button.

This year's report assesses the impacts of the COVID-19 pandemic in Southern Arizona. Click [here](#) or below, on the *System Report* button, to read the full report. Planting the Seeds for Tomorrow: The Tumamoc Resilience Garden Lecture Series

The [Tumamoc Resilience Garden at the base of Tumamoc Hill](#) will be an inspirational setting where the community can have hands-on participation in how to live in the desert in a hotter and drier future. The backbone design allows passive rainwater harvesting to create an environment that supports a [wide diversity of arid-adapted food species from the borderlands](#). The arid borderlands region is home to dozens of species that are the close relatives of many of the core crops species in use today around the world. These seeds represent millennia of adaptive knowledge from the plants and people of our region. The garden space will weave together time and approaches that demonstrate adaptive responses to an extreme environment, all in an inviting community space.

This lecture series will connect you to the concepts, people, and intentions of this new space in our community. Presentations in this series will be available on-demand on this website. Watch or listen at your convenience starting on the date listed for each presentation. Below is a list of lectures.

February 16th: Planting in the Rain

March 16th: O'odham Agriculture

April 20th" Food from the Levan: A Model of Desert Agriculture from Israel

May 18th: The Next Generation of Gardeners: the School gardens Project

For more information visit their [website](#).

Friday, February 25th 7 - 8:30 PM MST hosted by The Dunbar Pavilion

This event is open to all.

All self-identifying Black, Indigenous, and People of Color are welcome and encouraged to sign up to read a piece here: [SIGN-UP TO READ](#)

The National African American Read-In is the nation's first and oldest event dedicated to diversity in literature. It was established in 1990 by the Black Caucus of the National Council of Teachers of English to make literacy a significant part of Black History Month.

This initiative has reached more than 6 million participants around the world.

Share an evening of literature written by, for, and about Black People and Our culture read by community members.

Register for the event [here](#).

Farm Commons Spring 2022 Legal Workshop

Begins February 15th at 1PM CST

On the farm, you are no stranger to dealing with challenges and adapting to circumstances. Droughts, hurricanes, pests – you plan for it. And, with the disruptive impacts of the COVID-19 pandemic – from market shutdowns to supply chain shortages - you have done the incredibly hard work of showing up every day, again and again with determination and resilience.

Here at [Farm Commons](#), our team of farm law educators is dedicated to empowering and supporting you every day by providing you with the tools to build legal resilience.

Join in learning the 10 best practices of farm legal risk management over 5 weeks.

February 15: Farm Law as Your Creative Power

February 22: Organize Your Farm Business for Legal Success

March 1: Growing a Legally Resilient Workforce

March 8: Access Farmland with Legal Confidence

March 15: Diversify Farm Enterprises Without Adding Legal Risk

There are limited spots available so be sure to [sign up today!](#)

Building Beyond Nice Racism: Catalyzing Institutional Change in the Food System

This virtual learning series in 2022 is open to student, faculty, organizational, agency, and community leaders who are seeking a deeper understanding of structural and institutional racism in our food system. The series is designed to provide a pathway to action to help dismantle the attitudes, practices, and structures that hold racism in place as a step towards creating a more equitable food system that works for everyone.

Opportunities for Undergraduates

FOOD 393 Spring Internship Opportunities

Are you looking to earn academic credit this spring while also acquiring new life experiences and job skills? Consider applying for one of these internship opportunities (FOOD393)

- **Local First Arizona** - Local First Arizona Foundation (LFA) is a non-profit organization that is building opportunities in Arizona. LFA is an award-winning organization focused on community and economic development throughout the state in order to build self-sufficient, healthy, and prosperous communities.
- **UA Garden Kitchen** - The Garden Kitchen, located in the heart of South Tucson, is a seed-to-table nutrition education program of the University of Arizona's Pima County Cooperative Extension.

- **Mission Gardens** - Mission Garden is an ancient agricultural site, farmed continuously for more than 4,000 years. Today it is an agricultural heritage museum interpreting and celebrating the multicultural history of Tucson through a series of Timeline Gardens.
- **Pivot Produce** - Pivot is a produce distribution/warehousing company which sources produce from southern Arizona small scale farms to restaurants and consumers in the Tucson area.
- **Iskashitaa Refugee Network** - Iskashitaa Refugee Network creates opportunities to integrate UN refugees into the Southern Arizona community while educating the public, strengthening the local food system, reducing local food waste, and increasing food security. The network focuses on harvesting and gleaning food from local sources and backyard gardens that would otherwise go to waste.

FMI and to apply, please visit: <https://foodstudies.arizona.edu/internships>

Opportunities for Graduate Students

Graduate Assistantship in Food Systems at the University of New Hampshire

The **University of New Hampshire** is looking for a highly motivated graduate student to join my [food systems lab](#) at UNH for a fully funded graduate training opportunity. The student will play an important role in assisting with lab research projects to 1) advance the development of values-based food aggregation and marketing models that reduce barriers for farmers and consumers and prioritize resilience, environmental sustainability, food justice, and racial and LGBTQ+ equity, and 2) identify and address logistical, policy, and identity-based barriers and opportunities for wider public engagement with local and regional food systems. The ideal candidate for the position will thrive in a collaborative setting that brings together researchers from diverse fields, extension educators, nonprofit partners, farmers, and other food systems stakeholders.

To apply: Interested applicants should contact Dr. Analena Bruce (Analena.bruce@unh.edu) as soon as possible to discuss their interests in advance of applying for the graduate program (deadlines: January 15, 2022, for ANFS programs and May 15, 2022, for the NRES PhD program). Please include the following information in your message: 1) your interest in the position, 2) your goals for pursuing a graduate degree, 3) why you think this program may be a good fit for your professional goals and research interests, and 4) relevant experience and skills that qualify you for the position. Please attach a CV or resume to your message.

Post-Doc Opportunities

Udall Center for Studies in Public Policy is hiring a Postdoctoral Research Associate

Application Deadline: March 1, 2022

Position Start: August 2022

The Udall Center for Studies in Public Policy at the University of Arizona announces a postdoctoral position to focus on stakeholder engagement in environmental and natural resources governance. Stakeholder engagement is at the cornerstone of environmental and natural resources governance. Yet, it is often characterized by institutional deficiencies, inequities in practice, inadequate benchmarking, and a lack of measurable outcomes. This position offers the opportunity to explore stakeholder engagement across a number of efforts underway at the Udall Center, including local green infrastructure and urban greening projects, the use of novel geospatial tools in federal natural resources engagement processes, and governance practices in the Colorado River Basin, among other research topics. In addition, there is considerable room for the postdoctoral researcher to design and implement their own research initiative under this broad umbrella of stakeholder engagement in environmental and natural resources governance.

The Udall Center for Studies in Public Policy is a university-wide research center that is the intellectual home for interdisciplinary, stakeholder-based policy research and outreach. As such, the Udall Center's charge is to advance cross-cutting inquiry and connect diverse policy research efforts and researchers, gain increasing external support for policy research, and deliver measurable public impact.

The Environmental Policy Program at the Udall Center for Studies in Public Policy engages in applied research and outreach on public policy topics relating to economic development, environment, public health, public lands, and energy transitions and extends to such themes as social justice, gender equity, human well-being and quality of life, Indigenous entrepreneurship, and energy and renewables.

The postdoctoral candidate will be tasked with:

- Collaborating in an interdisciplinary and diverse research group
- Developing and where appropriate, overseeing project design
- Synthesizing and integrating across diverse bodies of public policy, geography, political science, and other relevant disciplinary literature

- Conducting qualitative and quantitative research
- Partnering with local, regional, and national stakeholders
- Presenting research results at national and international conferences
- Organizing and facilitating project meetings and broader stakeholder engagement efforts
- Coauthoring academic articles with research group members
- Co-supervising 1-3 undergraduate and graduate students engaged in collaborative efforts
- Co-developing proposals for extramural funding to continue and expand the line of research

Qualifications

- Doctoral degree or equivalent in geography, environmental policy, planning, political science, or a related field.
- Enthusiasm for studying stakeholder engagement in environmental and natural resources governance
- Comfort working in teams, leading team meetings, and supervising students
- Collaborative spirit
- Strong methodological skills
- Record of published research in this area
- Relevant experience

Interested applicants should apply [here](#) no later than March 1, 2022, to ensure full consideration.

Please include:

- Letter of interest summarizing interest and qualifications
- Curriculum vitae
- 1-2 writing samples e.g., thesis or dissertation, term paper, or manuscript for publication
- Please be prepared to share contact information for three professional references at time of interview.

Job Opportunities

University of Vermont Extension is hiring an Assistant Professor

University of Vermont (UVM) Extension is recruiting for an exciting career opportunity as an Extension Assistant Professor to join us in growing and building our research and programming capacity in Community Development. We are especially interested in candidates who can grow and lead a statewide extension

program based on sustaining and strengthening Vermont communities. The successful candidate will provide educational outreach, technical assistance, and program leadership that builds citizens' capacity to identify goals and develop systems to implement those goals with special emphasis on addressing the experiences of underrepresented individuals in organizations. They will also grow and lead a statewide extension program based on sustaining and strengthening Vermont communities. Click [here](#) for detailed information.

All candidates must apply [online](#) and must attach to their application a cover letter, curriculum vitae, or resume, a document explaining their teaching philosophy, and a diversity statement. The University is especially interested in candidates who can contribute to the diversity and excellence of the academic community through their research, teaching, and/or service. Applicants are requested to include a statement of how they will further this goal. Applicants are also required to list three references with contact information. Review of applications will begin on February 1, 2022 and will continue until suitable candidates are identified.

Real Food Generation is Seeking a Development Director

Team and Organizational Leadership The Development Director will work closely with the Interim Executive Director (through spring, 2022), and other staff. Real Food Generation is in a transitional period as our remaining co-founder and Executive Director departed at the end of August. We are committed to identifying the best leadership structure for our organization through its next phase of growth and impact while we both build a mass movement (using a "Momentum" organizing approach) and take on multiple ambitious national campaigns. We are currently undergoing a "Structural Planning Process" to determine the future leadership structure of the organization, which will inform the make-up of the team that the Development Director be a part of over the next year and beyond. We are considering moving towards a shared leadership model, with individuals maintaining leadership of their unique areas of expertise and responsibilities; this would require a significant restructure of our team and general operations this spring. Candidates applying for this position should feel comfortable with change and eager to work with colleagues to inform the leadership model and operational structure of our organization.

Responsibilities: The Development Director will develop and implement key strategies and actions to secure an annual budget (\$800,000 in FY22) and will play a critical role in ensuring the future growth of RFG. This position will be responsible for relationship cultivation with individual supporters, developing compelling language for proposals and acknowledgments, grant applications and grants

management, developing and implementing key fundraising strategies with a focus on large gifts, and supporting the Grassroots Communications Coordinator in building an active base of individual supporters nationally. The Development Director will: 1) cultivate relationships with new individual donors and nourish existing relationships; 2) ensure up-to-date, compelling language for asks and acknowledgements; 3) lead grant application and reporting activities; 4) work closely with the Grassroots Communications and Fundraising Coordinator to increase individual giving on the grassroots level; and 5) create and implement a robust development strategy to ensure long-term sustainability of the organization. This individual will be expected to take initiative, problem-solve on the fly and work with a diverse, and often geographically dispersed team. For additional information click [here](#).

To Apply: Please submit a cover letter and resume to cristina@realfoodgen.org with the subject "Development Director Application." In your cover letter, please describe your development and fundraising experience as it relates to the responsibilities and qualifications of this position.

SAEA Outreach Coordinator - Contractor Position

The [Sustainable Agriculture Education Association](#) (SAEA) is seeking an Outreach Coordinator to help us achieve our communications and outreach goals as a national organization dedicated to achieving sustainable and just food systems through teaching and learning. The Outreach Coordinator's responsibilities will include membership communications, website updates, conference outreach, participating in SAEA governance, and promoting the [principles of Equity](#) affirmed by our members.

The Outreach Coordinator position **is a 12 month contract position**, with a 2-month trial period and opportunity for extension. It is not an employee position. **The position pays equivalent to an hourly rate of \$30 (approximately \$600/month) and requires about 5 hours/week of work conducted remotely.**

Applications will be reviewed on a rolling basis beginning **February 14th** until February 28th. The position begins as early as March 7, 2022. For more information, please contact: saea.information@gmail.com.

SAEA strongly encourages individuals from underrepresented and/or marginalized identities to apply. We value and seek candidates who will contribute to building capacity for folks with lived experience to address ongoing structures of inequity.

A full description of responsibilities, compensation, and preferred qualifications can be found online here:

<https://sustainableaged.org/get-involved/open-positions/>

Part-time Coalition Coordinators at the California Climate and Agriculture Network (CalCAN)

Coordinator, California Caucus of the National Sustainable Agriculture Coalition

The California Caucus of the National Sustainable Agriculture Coalition (NSAC) is seeking a Coordinator to support, facilitate and strategize federal organizing and advocacy on the federal Farm Bill. The Caucus is a group of California-based [NSAC member organizations](#) working to elevate the unique challenges and needs of California agriculture with a specific focus on climate change, beginning and socially disadvantaged farmers and ranchers, and equity. This is a part-time hourly position and can be based anywhere in the U.S., with a preference for California. Compensation will be negotiated dependent on experience. The position will be open until filled. Click [here](#) for more information and application instructions.

Coordinator, National Healthy Soils Policy Network

The [National Healthy Soils Policy Network](#) is seeking a Network Coordinator to support and facilitate this dynamic nationwide network of state-level healthy soils policy advocates. The Network is a group of farmer-centered organizations in 24 states that advocate for state and federal policies on behalf of sustainable, organic, beginning, and/or family farmers. The Coordinator will coordinate and facilitate Network activities, develop and maintain relationships between member organizations, and provide resources for Network members. This is a part-time hourly position (to a maximum of 15 hours per week) and can be based anywhere in the U.S. Compensation will be negotiated dependent on experience and location. The position is open until filled. More details and instructions on applying are available [here](#).

UA Campus Pantry

Please Remember to Support our Campus Pantry

The mission of the UA Campus Pantry is to alleviate hunger in the UA Wildcat community by providing food assistance to those in need. On average, 1 in 3 college students experience food insecurity at some point in their academic career. The Campus Pantry helps to reduce this statistic by providing supplemental groceries to students in need. In addition, food insecurity looks different for all students. Sometimes it can be a lack of access to transportation, lack of financial resources or simply not having enough or nutritious foods.

For more information, including how to donate, please visit the [Campus Pantry](#) website.

Send Us Your News!

Do you have a piece of news you would like to circulate on the CRFS newsletter? Do you have a new book out? Won an award? Recently wrote a public-facing essay, an op-ed, or appeared in an interview? We'd love to share your news and keep our network informed of each other's successes, recent work, and/or initiatives. **Send your news items for inclusion in our newsletters to Center for Regional Food Studies Assistant Director, [Laurel Bellante](#).**

CRFS Blog Submissions

The CRFS blog aims to highlight the diversity of teaching, research, and service happening around food within our community. We invite submissions of 500-700 words by faculty, staff, and students, as well as community members. We are also open to proposals for photo essays, video compilations, and/or interviews. **Submit your ideas or questions to Center for Regional Food Studies Assistant Director, [Laurel Bellante](#).**
